

APPENDIX A  
NOTICE OF VIOLATION

Consolidated Edison Company  
Indian Point, Unit 2

Docket No. 50-247  
License No. DPR-26

As a result of the inspection conducted on July 10-13, 17-20, 1984, and in accordance with the NRC Enforcement Policy (10 CFR 2, Appendix C) and revised 49 FR 8583 (March 8, 1984), the following violations were identified:

- A. 10 CFR 20.201, "Surveys", requires the licensee to perform surveys [evaluations of the radiation hazards incident to the presence of radioactive materials] as necessary to comply with the regulations of this part.

Contrary to the above, on July 14, 1984, the licensee performed sampling of airborne radioactivity to support the work of two individuals compacting dry radioactive waste in accordance with Radiation Work Permit 8217. Though the air sample analysis indicated the presence of alpha activity, the licensee failed to evaluate this radiation hazard and consequently failed to take prompt action to estimated personnel exposure due to alpha or transuranic activity in accordance with 10 CFR 20.103, "Exposure of individuals to concentrations of radioactive materials in air in restricted areas".

This is a Severity Level IV Violation (Supplement IV).

- B. 10 CFR 19.12, "Instructions to Workers", requires the licensee to provide instructions to personnel in precautions and procedures to minimize exposure to radiation and radioactive materials.

Contrary to the above, on July 14, 1984, two individuals were directed to compact dry radioactive waste in accordance with Radiation Work Permit 8217, but were not adequately instructed in precautions and procedures to minimize their exposure to radiation and radioactive material. Consequently, the individuals conduct in the area resulted in creating an airborne radiological hazard and their unplanned intake of radioactive materials.

This is a Severity Level IV Violation (Supplement IV).

Pursuant to the provisions of 10 CFR 2.201, Consolidated Edison Company is hereby required to submit to this office within thirty days of the date of the letter which transmitted this Notice, a written statement or explanation in reply, including: (1) the corrective steps which have been taken and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending this response time.
