February 2, 1971

E. M. Howard, Senior Reactor Inspector
Region I, Division of Compliance

INSPECTOR'S OPINION AND EVALUATION
JERSEY CENTRAL POWER AND LIGHT COMPANY
FORKED RIVER NO. 1
CO Report No. 363/71-1

The response of GPU appears to be favorable. I plan to reaudit, during February, the areas of concern and check for approval of the contractor's QA plan.

Robert F. Heishman
Reactor Inspector
