Directorate of Regulatory Operations, Headquarters

RO Inspection Report No. 50-219/73-21
Jersey Central Power and Light Company (Oyster Creek)

The subject inspection report is forwarded for action.

The State of New Jersey's Emergency Plan does not meet the "Guide and Checklist for the Development and Evaluation of State Radiological Emergency Response Plans for Fixed Facilities", (Interim Guidance) November 16, 1973. State personnel indicated that they were presently working towards this end and that copies of their plan would be available when it was revised.

The purpose of this memo is to point out this fact and to suggest that this information be forwarded to the Office of Government Liaison and/or OSB, DL for follow up action on their part, e.g., contacting New Jersey, soliciting New Jersey's Plan for review and comment etc.

J. P. Stohr, Chief
Environmental Protection and
Special Programs Section

Enclosures:

1. Inspectors Evaluation
2. Documentation Letter (w/encl)
