SUBJECT: TEXAS A&M UNIVERSITY, NUCLEAR SCIENCE CENTER EMERGENCY PLAN

Dear Dr. Flumerfelt:

The staff of the Nuclear Regulatory Commission has reviewed the information submitted by Dr. Sean O'Kelly in a letter dated June 14, 1995. The staff agrees with the conclusion that the set of postulated radiological events at the site boundary would not result in a radiation level requiring an unusual event in your emergency plan. Therefore, the emergency plan, dealing with radiological effluents as initiating conditions for emergency action levels, does not have to be revised as requested in my letter of April 24, 1995. If you have any questions, please call me at 301-415-1102.

Sincerely,

Original signed by:

Theodore S. Michaels, Senior Project Manager
