License No. DPR-16
 Inspection No. 50-219/74-04

Gentlemen:

This refers to the inspection conducted by Mr. Bores of this office on March 20, 1974 at the Oyster Creek Nuclear Generating Station of activities authorized by AEC License No. DPR-16.

The results of the radionuclide analyses for the sediment samples taken at that inspection are included in the Addendum Regulatory Operations Inspection Report which is enclosed with this letter. Other aspects of the inspection were previously discussed in our letter, with enclosure, dated April 16, 1974.

Within the scope of this inspection, no violations or safety items were observed.

In accordance with Section 2.790 of the AEC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the AEC's Public Document Room. If this report contains any information that you (or your contractor) believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reasons on the basis of which it is claimed that the information is proprietary, and should be prepared so that proprietary information identified in the application is contained in a separate part of the document. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.
