Docket No. 50-354

R. L. Mittl, General Manager
Nuclear Assurance & Regulation
Public Service Electric & Gas Company
80 Park Plaza, T22A
Newark, New Jersey 07101

Dear Mr. Mittl,

SUBJECT: DETAILED CONTROL ROOM DESIGN REVIEW PRE-IMPLEMENTATION AUDIT

By letter dated August 14, 1984, PSE&G submitted the Hope Creek "Control Room Design Review Summary Report" for NRC staff review. The staff has reviewed this report and decided a pre-implementation audit of the Hope Creek Control Room Design Review is necessary. As agreed to by your staff, the pre-implementation audit will be held November 13, 14 and 15, 1984.

The purpose of the audit is to evaluate the results of the review to date with emphasis on the following areas:

1. The results of the DCRDR function and task analysis;
2. The proposed control room modifications;
3. The justification for HEDs, with safety significance, to be left uncorrected or partially corrected; and,
4. The proposed schedules for implementing the modifications.

In preparation for the audit, please make the following arrangements to facilitate the audit process:

1. Make available any PSE&G review team personnel knowledgeable of the DCRDR tasks/process and be ready to discuss or respond to NRC staff questions during the audit.
2. Be able to provide documentation of the review results to date, including HEDs identified, and any review materials such as task analysis, survey and/or inventory checklists and other data collection forms.

F PDR

- 3. Provide for access to the site and control room area(s) for the NRC staff and its contractors. The NRC staff also requests clearance to bring camera equipment on-site and to take photographs in the control room or other areas which may assist in evaluating the DCRDR and help in documenting the audit.
- 4. Provide for conference or office space for both the NRC staff's meetings with the PSE&G review team and for the NRC audit team to meet privately.

Should you have any questions, please call Mr. David Wagner, the NRC Licensing Project Manager (301) 492-8525.
