Gentlemen:

This refers to the inspection conducted under the Resident Inspection Program-Operations by Messrs. H. F. Bundy, D. R. Carpenter, and B. Breslau of this office and Messrs. D. Baxter and H. Stromberg of EG&G Idaho, Inc., during the period of May 22 to August 9, 1984, of activities authorized by NRC Construction Permit No. CPP 147, for the Wolf Creek Generating Station and to the discussion of our findings with Messrs. F. T. Rhodes, R. J. Glover, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included site tours; review of preoperational test procedures; followup of allegations; observations of preoperational test performance; cleaning and insulation of piping; quality concerning investigative activities; and action on previous inspection findings. The findings are documented in the enclosed inspection report. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors.

Within the scope of the inspection, no violations or deviations were identified.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of this item is identified in paragraph 7 of the enclosed report.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter, and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
