

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

OCT 21 1975

TO: Gary Snyder , Enforcement Coordinator, Region I
SUBJECT: CHANCE IN ENFORCEMENT SANCTION
LICENSEE: JERSEY CENTRAL POWER AND LIGHT COMPANY

The sanction proposed by the Region for the subject licensee was changed from a

{	()	Notice of Violation	}	to a	{	(x)	Notice of Violation	}
	(x)	Civil Penalty				()	Civil Penalty	
	()	Order				()	Order	

for the following reasons:

1. () The case does not involve an immediate health, safety, public interest, or common defense and security consideration.
2. () The case does not meet the following criteria for the proposed sanction: _____
3. () The case does meet the following criteria for the sanction imposed: _____
4. (x) The case does not have sufficient action points to support the proposed sanction.
5. () The case has sufficient action points to support the sanction selected.
6. () Adequate Regional action (Enforcement conferences, Immediate Action Letters, etc.) was (was not) initiated to warrant the sanction (taken, proposed).
7. () Items of noncompliance were not supported by facts.
8. (x) A QA breakdown ~~was~~ (was not) established for the following reasons: Most of the items of noncompliance appear to be procedural and not substantive in nature. For example, some of the procedures were not properly reviewed and approved but there is no indication that the procedures were deficient or contributed to an incident with health and safety considerations.
