October 10, 1975

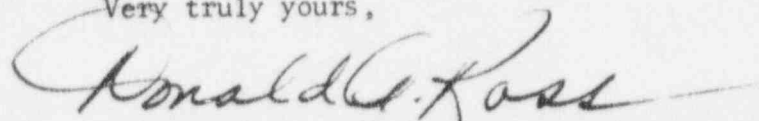

Mr. Paul R. Nelson, Chief
Radiological and Environmental Protection Branch
United States Nuclear Regulatory Commission
Region 1
631 Park Avenue
King of Prussia, Pennsylvania 19406

Dear Mr. Nelson:

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Inspection No. 75-20

In his inspection of the Oyster Creek Nuclear Generating Station on August 4 and 5, 1975, Dr. C. Gallina noted a deviation from appropriate guides and practices. This involved the lack of a written letter of agreement from the physician who provides primary on-site medical treatment for the Oyster Creek Station. Since Dr. Gallina's inspection, a written letter of agreement has been received. To prevent reoccurrence, such letters of agreement shall be reviewed in accordance with existing procedures.

Very truly yours,

Donald A. Ross, Manager
Generating Stations-Nuclear
