Dear Mr. Foster:

Subject: Transmittal of Staff Report Addressing Vogtle Conformance to  
Regulatory Guide 1.97

Georgia Power Company (GPC) response to NRC Generic Letter 82-33 (Supplement No. 1 to NUREG-0737) was provided by letter dated April 14, 1984. The staff, with the assistance of its consultant, EG&G Idaho, has reviewed the information in the letter and the Vogtle FSAR. The enclosed report provides the results of this review. Exceptions to Regulatory Guide (RG) 1.97 for which adequate justification has not been provided are identified.

Responses to these items should be provided by March 5, 1985, in order to accommodate the SER schedule. Conformance to RG 1.97 has been identified as Open Item 62 in the Vogtle DSER. You should also provide any other comments if the enclosed report includes any incorrect assumptions or reflects a commitment which you believe is beyond the intent of the previous GPC response.

If there are any questions regarding this report, contact the project manager, Melanie Miller, at (301) 492-4259.

Sincerely,

Elinor G. Adensam, Chief  
Licensing Branch No. 4  
Division of Licensing
