General  Public Utilities Corporation

August 28, 1975

Mr. James P. O'Reilly, Director  
Office of Inspection and Enforcement, Region 1  
United States Nuclear Regulatory Commission  
631 Park Avenue  
King of Prussia, Pennsylvania 19406

Dear Mr. O'Reilly:

Subject: Oyster Creek Nuclear Generating Station  
Docket No. 50-219  
Status Report for IE Bulletins No. 75-04 and No. 75-04A

Reference: My letters to you dated May 27, 1975, June 30, 1975  
and August 1, 1975.

This reports the status of incomplete activities that were initiated in response to IE Bulletins No. 75-04 and No. 75-04A.

Since the August 1, 1975 Status Report on the fire detection and suppression system, the following activities have taken place:

1. The Modification Proposal for the installation of the Fire Protection System at Oyster Creek has been submitted to the Plant Operations Review Committee.
2. Completed the engineering evaluation of the Fire Protection System for the Cable Spreading, Battery, and 480-volt Switch-gear Rooms.

It is anticipated that during the next 30-day period, the following will be accomplished:

1. Review and approval of Modification Proposal from the Plant Operations Review Committee.
2. Formalize an engineering evaluation of needed area structural change.
3. Review vendors recommendation on additional area ventilation dampers.

B/770

Mr. O'Reilly

-2-

August 28, 1975

The status of the Shutdown and Emergency Procedures review is unchanged.

Very truly yours,

Donald A. Ross, Manager  
Generating Stations-Nuclear
