dated November 21, 1984
(P-84501)

Dear Mr. Johnson:

This letter contains a resubmittal of proposed changes to Technical Specification Sections 4.6 and 5.6. Efforts to increase the consistency between the overall electrical system requirements at Fort St. Vrain and the Standard Technical Specifications, were also made in the development of these changes.

A summary of all the proposed changes is provided in Attachment 1, and the changes themselves are provided in Attachment 2. Attachment 3 contains an evaluation of the significant hazards considerations involved in the proposed changes.

In accordance with the provisions of 10 CFR 170, we believe that amendment fees should not be required since this application serves only to supplement the submittal in Reference 1) and no additional safety issues have been introduced.

The resubmittal of proposed changes to Technical Specification Sections 4.4 and 5.4 will be done under a separate amendment request.

If you have any questions, please contact Mr. M. H. Holmes, at (303) 571-8409.

Very truly yours,

O. R. Lee
Vice President
