License No. DPR-16
Inspection No. 75-27
Docket No. 50-219

Gentlemen:

This refers to the inspection conducted by Mr. M. Rogers of this office on December 16, 1975 at Oyster Creek Power Station, Forked River, New Jersey of activities authorized by NRC License No. DPR-16 and to a telephone discussion between Mr. E. Greenman of this office and Mr. J. Carroll of your staff on January 23, 1976.

The area examined during this inspection was limited to details surrounding spent fuel shipment #68 (September 17, 1975) and #110 (December 9, 1975). Within this area, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

One item of noncompliance identified through your internal audit program, which was reported in a timely manner and corrective action taken, is set out in the inspection report. No additional information is needed regarding this item.

In accordance with Section 2.790 of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractor) believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reasons on the basis of which it is claimed that the information is proprietary, and should be prepared so that proprietary information identified in the application is contained in a separate part of the document. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.
