

Docket No. 50-289

October 23, 1984

PDR  
OIL

Mr. Henry D. Hukill, Vice President  
and Director - TMI-1  
GPU Nuclear Corporation  
P. O. Box 480  
Middletown, Pennsylvania 17057

Dear Mr. Hukill:

The staff has completed its review of your submittals requesting relief from certain ASME Code inservice testing requirements (IST) for pumps and valves for the remainder of the current 120 month testing interval. The staff's evaluations are provided in the safety evaluation (SE) in support of Amendment No. 71 to the TMI-1 operating license (August 3, 1981) and the enclosed supplemental evaluation (SSE), based on the reference in the SSE.

Table 2.1 of the SE identified items for which relief has been granted; Table 2.2 listed items that remained open. Also, your September 25, 1981 letter (SSE reference 2) requested one additional relief and three clarifications; the staff's position on these four items are discussed in SSE reference 3. Based on the information provided to the staff (SSE references 2, 4 and 5), discussions with your staff (SSE references 6 and 7), a review of your valve disassembly/inspection report (SSE reference 8) and your updated IST program (SSE reference 9), the staff has reached conclusions regarding the relief requests that remained open from Amendment No. 71. Some requests have been granted or conditionally granted; others have been denied entirely or in part. In particular, the staff has concluded that the following components should be added to TS Table 3.1.6.1:

CF-V4A/B; RC-V4; RC-V23; MU-V107A/B/C/D;  
MU-V86 A/B; MU-V95; DH-V1; DH-V2.

Additionally, the following components should be tested in accordance with ASME Code test requirements:

CA-F1A/B; CA-V177; WDL-V361

The attached SSE contains further discussion on these items as well as other modifications to your relief requests which, the staff believes, are necessary for an adequate IST program.

8411050135 841023  
PDR ADDCK 05000289  
P PDR

We request that you revise your IST procedures and within 120 days submit a revision to your TSs that incorporate the changes identified in the attached SSE.

Sincerely,

John F. Stolz, Chief  
Operating Reactors Branch No. 4  
Division of Licensing
