License No. DPR-16
 Docket No. 50-219
 Insp. No. 75-02

Gentlemen:

This refers to the inspection conducted by Mr. King and Mr. Rogers of this office on January 21-23, 27, 1975 at Oyster Creek Nuclear Generating Station, Rt. 9, Waretown, New Jersey of activities authorized by AEC License No. DPR-16 and to the discussions of our findings held by Messrs. Devlin and Rogers with Messrs. Ross, Carroll, Reeves, and Baron of your staff at the conclusion of the inspection, and to a subsequent telephone discussion between Mr. Rogers of this office and Mr. Carroll on January 24, 1975.

The area examined during this inspection was limited to the Physical Protection Program. Within this area, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. These items of noncompliance have been categorized into the levels as described in our correspondence to you dated December 31, 1974. This notice is sent to you pursuant to the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit to this office, within (20) days of your receipt of this notice, a written statement or explanation in reply including: (1) corrective steps which have been taken by you and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved.

In addition to your response to the apparent specific items of noncompliance, please provide us a written explanation for the deviations identified in Appendix B, enclosed herewith, including corrective steps which have been taken by you and the results achieved.

As you are aware from the "Criteria for Determining Enforcement Action", which was provided to you with our letter of December 31, 1974, the en-

enforcement actions available to us in the exercise of our regulatory responsibilities include administrative actions in the form of written notices of violation, civil monetary penalties, and orders pertaining to the modification, suspension or revocation of an operating license. While matters identified in Appendices A and B do not present an immediate threat to the health and safety of the public, we wish to remind you of the necessity for taking prompt management action to assure full compliance with NRC requirements in the future and to correct the items of noncompliance and the items of deviation identified during the inspection. We plan to continue to conduct unannounced inspections to ascertain whether such action has been taken.

In accordance with Section 2.790(d) of the AEC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, documentation of findings of your control and accounting procedures for safeguarding special nuclear materials and your facility security procedures are exempt from disclosure; therefore, the enclosures to this letter, the inspection report, and your response to this letter will not be placed in the Public Document Room and will receive limited distribution.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

/s/

James P. O'Reilly
Director
