RECEIVED NOV 2 1984

DEAR JUDGE IVAN SMITH,

No time for fancy stationery.
PLEASE READ BECAUSE WE'RE
all in this Fight for justice,
good health and to save lives.
If we don't face facts and stop
playing games the mid-west
will become paralyzed. All
because of the stupidity
living with-in the walls of
the Byron Nuclear Plant.

There are many workers
that want to testify about
flaws in the nuclear plant,
thoes people should be heard!

I would like ~~a~~ reviews of

I will be at all hearings.

If that plant opens under

dead body. God blessed me
so far with 3 creations,
and I am responsible for their
health and happiness. I've lived
30 years in peace and harmony
and I want the same for my
children. I will never take
life for granted. Today I had
to ignore my children so I
can write you this letter.
I will also be ignoring them
when I have to take days
off and go to the hearings.
It hurts me to have to leave +
ignore them. If I don't fight,
my children may never see
tomorrow, I am doing what I'm
doing for their sake. We
live among people who are greedy,
and money hungry, I know
people who work for the

Byron Plant just for the Green
stuff, they are never happy
they would like to blow-up
the world, because they can't
get enough of that green
stuff (Money). Every time
I have extra something
I always give to the
poor. Say Judge Smith if
you ever become broke
you can always find food
shelter, clothing from the
