In the Matter of  
LONG ISLAND LIGHTING COMPANY  
(Shoreham Nuclear Power Station, Unit 1)  
Docket No. 50-322-1 (OL)

Dear Appeal Board Members:

At the oral argument held on Monday, February 11, 1985, the Appeal Board asked a number of questions concerning various scheduling issues, including the timing of the availability of the Colt diesels at Shoreham. In order to complete the record, the Staff would like to inform the Appeal Board that it expects the Staff review of the Colt diesels to take approximately six months after submission of an FSAR amendment to the Staff from LILCO. As of this time, LILCO has not yet submitted such an amendment to the Staff.

Sincerely,

*Robert G. Perlis*  
Robert G. Perlis
