This notice is recommended for further development with
the following recommendations for strengthening the
project (additional pages may be used for outlining the
recommendations).

This notice is not recommended for further development
(accompanied by detail comments which explains the
Division's rationale for this decision).

The Department of Natural Resources (DNR) has completed
a review of the Draft Environmental Impact Statement related
to the operation of the Vogtle Electric Plant, Units No. 1 &
2 (NUREG-1087). It is DNR's position that the document ade-
quately assesses the environmental impact of the proposed
plant operations on a routine basis and during accidents.
