Dear Mr. Koester:

Subject: Design Verification Activities - Wolf Creek 1

By letter dated January 4, 1984, the NRC staff requested that KG&E submit additional information which could possibly support the conclusion that the design process for Wolf Creek has been properly implemented. KG&E responded via letter dated March 9, 1984, and via supplemental letter dated August 15, 1984.

After reviewing your responses, the staff concludes that an independent design verification program is not necessary.

Sincerely,

Original signed by
