Dear Mr. Schnell:

Subject: Technical Specification Amendment Request Dated October 8, 1984

By letter dated October 8, 1984, Union Electric (UE) Company requested two changes to the Technical Specifications for the Callaway Plant, Unit 1 low-power license, License No. NPF-25. One change reflected a change in the UE Nuclear Organization and is being processed in accordance with 10 CFR 50.90 and 10 CFR 50.91. The second change represents a typographical error in Specification 3.3.3.7. The reference to Specification 4.6.1.6 should be corrected to Specification 4.6.1.5.

The purpose of this letter is to inform you that the staff has corrected the reference to Specification 4.6.1.5 in Technical Specification 3.3.3.7 in the Technical Specifications issued with the Callaway full-power license, License No. NPF-30. Therefore, this portion of the amendment request need not be processed.

If you should require any assistance, please contact the Callaway Project Manager.

Sincerely,

B. J. Youngblood, Chief
