MEMORANDUM FOR: Docket File No. 40-8698

FROM: Noah M. Shopenn, Project Manager
Licensing Branch 2
Uranium Recovery Field Office, RIV

SUBJECT: LAND USE SURVEY FOR PLATEAU RESOURCES LIMITED
MILL (PRL)

Plateau Resources Limited submitted a copy of the annual land use survey conducted in the vicinity of the Shooting Canyon Uranium Processing Facility by letter dated September 26, 1984. The survey had been conducted and submitted in accordance with License Condition No. 37 of SUA-1371.

My review of the information provided indicated that very few changes in land use had occurred within five miles of the mill since the previous annual land use survey in September 1983. These minor changes are as follows:

1. A pipeline had been installed by the Bureau of Land Management as shown on the general overview map (Plate 1) and named the Cass Creek Pipeline. The line was installed for livestock watering and is located at the western edge of the five mile radius.
2. At the Tony M Portal Facility a water storage tank and a fire pump house have been added and the well locations have been corrected and updated (Map Plate 3).

In addition, as of September 1, 1984 the population of Ticaboo, Utah was 106, a decrease of 158 since August 1, 1983.

My review of the information provided by Plateau Resources Limited indicated that the survey had been performed in accordance with the requirements of License Condition No. 37 of SUA-1371. The information provided indicated no major changes in land use from that reported in previous surveys. No further action is therefore necessary.
