Docket No. 50-289

GPU Nuclear Corporation
ATTN: Mr. H. D. Hukill
Director, TMI-1
P.O. Box 480
Middletown, Pennsylvania 17057

Gentlemen:

Subject: Inspection 50-289/84-24

Between August 3, 1984 and September 7, 1984, Mr. F. Young and other NRC representatives conducted a routine safety inspection of activities authorized by NRC License No. DPR-50 at your facility. The attached NRC Region I Inspection Report described the areas examined. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. In addition to the routine resident inspector activities, a special review of your Maintenance Program was conducted. At the conclusion of the inspection, Mr. Young summarized the inspection findings to you and other members of your staff as noted in the inspection report.

As a result of your procedural changes to address the conduct of minor maintenance, this inspection disclosed that one activity was apparently not performed in full compliance with NRC regulations. The enclosed Notice of Violation (Appendix A) describes the apparent violation categorized by severity level in accordance with NRC Enforcement Policy (10 CFR 2, Appendix C). You should follow the instructions in Appendix A in preparing your response to the Notice.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
