Gentlemen:

SUBJECT: REPORT NOS. 50-438/84-04 AND 50-439/84-04

Thank you for your revised response of September 19, 1984, to our Notice of Violation issued March 22, 1984, concerning activities conducted at your Bellefonte facility. We have evaluated your response and found that although you have provided additional information concerning your denial of the violation, we have determined that this violation did occur as stated. We do agree that the responsible construction engineer made an incorrect decision regarding documentation, and that it was an isolated occurrence; therefore, no further corrective action is required.

We appreciate your cooperation in this matter.

Sincerely,

John A. Olshinski, Director
Division of Reactor Projects
