VOGTLE ELECTRIC GENERATING PLANT - UNIT 1
PRESERVICE INSPECTION (PSI) PROGRAM

Dear Mr. Denton:

As a result of our review of your staff's comments in DSER Sec 5 dated 10/27/84, open items 36 and 38, we are submitting seven (7) copies of the PSI Program, ISI-P-002, Rev. 1 for Unit 1 and three (3) sets of a supplemental drawing package which we feel will facilitate your staff's review of the Unit 1 PSI Program. This drawing package includes Piping Isometric Drawings and Piping Classification Drawings.

The Piping Classification Drawings were previously included as part of the Program; however, Revision 1 replaced the Classification Drawings with the Line Designation List. The Line Designation List includes lines greater than one-inch diameter and gives Project Class, ISI Class, Material, Operating Pressure and Temperature, the type of examination required for each line, and exemption criteria, if applicable.

Scope of Work Tables in the Program detail the minimum percentage of examinations which we will accomplish for each Program Item Code and ASME Section XI Item Number.

Page 2

As previously coordinated with your staff, two (2) copies of the PSI Program and one (1) set of drawings are being sent under separate cover to the Vogtle Project Manager, Ms. M. Miller. Also, one (1) copy of the PSI Program and one (1) set of drawings are being sent to your contracted reviewer, Mr. Boyd Brown of EG&G by copy of this letter.

If your staff requires additional information, please contact me.

Sincerely,

J. A. Bailey
Project Licensing Manager
