Docket No. 50-440

The Cleveland Electric Illuminating  
Company

ATTN: Mr. Murray R. Edelman  
Vice President

Nuclear Group  
Post Office Box 500v  
Cleveland, OH 44101

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. M. P. Phillips and W. G. Snell of this office and accompanied by Mr. D. J. Perrotti of the Office of Inspection and Enforcement, NRC Headquarters on October 2-3, 1984, of activities at Perry Nuclear Power Plant authorized by NRC Construction Permit No. CPPR-148 and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

The purpose of this inspection was to determine from discussions with your staff and our observations, your readiness for a preoperational emergency preparedness appraisal. Based on our findings from this inspection, we have determined that the period from February 25 through March 8, 1985 will be an appropriate time for the appraisal.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1). If we do not hear from you in this regard within the specified periods noted above, a copy of this letter and the enclosed inspection report will be placed in the Public Document Room.
