Ms. Billie Pirner Garde  
Citizens Clinic Director  
Government Accountability Project  
1901 Que Street, NW  
Washington, DC 20009

IN RESPONSE REFER  
TO FOIA-84-455

Dear Ms. Garde:

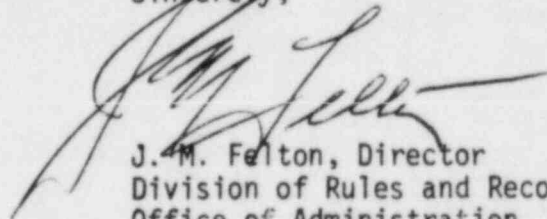

This is in partial response to your letter dated May 31, 1984, in which you requested, pursuant to the Freedom of Information Act (FOIA), all records relevant to and/or generated in connection with any report or study of the basemat cracking and water leakage and seepage problems at the Waterford III plant conducted and issued subsequent to the formation of the special Waterford team.

At this time, the records identified on enclosed Appendices A and B are available for your inspection and copying at the NRC Public Document Room (PDR).

As you know, on April 2 the staff undertook an intensive review to resolve issues in order to reach a licensing decision on the Waterford plant. Upon completion of the staff's evaluation, which is still in progress, the staff will publish a supplemental safety evaluation report (SSER).

Following publication of the SSER, the staff will make the pertinent records not otherwise exempt under the FOIA publicly available at the PDR. We will notify you upon completion of review of any additional records subject to your FOIA request.

Sincerely,

J. M. Felton, Director  
Division of Rules and Records  
Office of Administration

Enclosures: As stated
