

OCT 29 1984

Docket No. 50-369

Duke Power Company  
ATTN: Mr. Hal B. Tucker, Vice President  
Nuclear Production Department  
Post Office Box 33189  
Charlotte, North Carolina 28242

Gentlemen:

We have received a copy of your application dated December 22, 1982, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review in connection with the McGuire Nuclear Station Unit No. 1. This application requested an exemption from the requirements of 10 CFR 50.71(e) to update the Final Safety Analysis Report initially within 24 months of either July 22, 1980 or the date of issuance of the operating license. A Class II fee (\$1,200) was remitted with your application pursuant to 10 CFR 170.22 of the March 23, 1978 regulations.

Based on information provided by the ONRR staff, it has been determined that this application should be exempted from the fee requirements of 10 CFR 170 of the March 23 regulations since no action has been taken on the request nor will any action be taken on it. On this basis, we have concluded that an exemption, pursuant to 10 CFR 170.11(b), from the fee requirements is authorized by law and such exemption is otherwise in the public interest and is hereby granted for the December 22 application. Therefore, a refund of \$1,200 is appropriate. Accordingly, we have concurrently authorized the Division of Accounting and Finance to refund \$1,200 to your Company. Refunds are generally processed within a two-week period.

Sincerely,

Original Signed by  
Wm. O. Miller
