DMB

Docket No. 50-346

Toledo Edison Company
ATTN: Mr. Richard P. Crouse
Vice President
Nuclear

Edison Plaza
300 Madison Avenue
Toledo, OH 43652

Gentlemen:

This is to acknowledge receipt of your letter of October 11, 1984 which transmitted a copy of the Corporate Radiological Emergency Response Plan for the Davis-Besse Nuclear Power Station, Unit 1.

We have reviewed the entire corporate plan and determined that the content is consistent with the requirements of 10 CFR 50.54(q) and does not decrease the effectiveness of your plan. This plan is, therefore, acceptable.

Please be reminded that 10 CFR 50.54(q) requires NRC approval of any changes to your plan which may decrease the effectiveness of the plan. However, if your safety review indicates no decrease in emergency preparedness effectiveness, then changes can be made without prior NRC approval. In all cases, you must furnish copies of each proposed change to the NRC in accordance with 10 CFR 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of 10 CFR Part 50, Appendix E, Section V (Implementing Procedures).
