RO:I INSPECTION REPORT 50-219/74-07

Jersey Central Power and Light Company
 License DPR-16

The subject inspection report is forwarded for action. Report Detail Paragraph 3 identifies discrepancies between the facility license conditions and the Regulatory Staff Policy on Shift Manning for Nuclear Power Plants (RO:OB:181 dated 10/16/73). The facility is being considered for issuance of a full term license. Expedited action to identify to the licensee the actual shift manning requirements to be placed upon his facility is requested.
