NUCLEAR REGULATORY COMMISSION
REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

April 16, 2020

Mr. Dean Curtland
Director of Site Operations
NextEra Energy Duane Arnold, LLC
3277 DAEC Road
Palo, IA 52324-9785

SUBJECT: NRC PARTICIPATION IN THE DUANE ARNOLD ENERGY CENTER
EMERGENCY PREPAREDNESS EXERCISE (PLUME PHASE)
RESCHEDULED FROM APRIL 2020 TO SEPTEMBER 2020

Dear Mr. Curtland,

The U. S. Nuclear Regulatory Commission (NRC) routinely participates in licensees' Emergency Preparedness Exercises to ensure that the NRC's incident response capabilities are effectively maintained and to provide licensees an opportunity to exercise the interface with the NRC during response to an incident at their sites. The purpose of this letter is to inform you of our intent to participate in the Duane Arnold Energy Center Emergency Preparedness Exercise that was rescheduled to September 2, 2020, as a result of the Nation's response to slow the spread of the novel coronavirus and COVID-19.

During the exercise, the NRC's response will involve activating various NRC response centers, as deemed appropriate. The NRC will dispatch NRC responders, as necessary, to your various response facilities to ensure a face-to-face presence at these emergency locations for monitoring, assessment, and information sharing purposes. If our scope of participation changes, we will contact your emergency preparedness staff to discuss the changes.

The NRC is available, at your request, to provide some or all the NRC pre-exercise outreach activities previously conducted March 4-5, 2020, again in preparation for the rescheduled exercise. These pre-exercise activities help site personnel understand the NRC's incident response activities.

If you have any questions concerning our participation, please contact Brent Boston at 630-829-9764, Desiree Smith at 630-829-9853, or me at 630-829-9650.

This letter will be made available for public inspection and copying at <http://www.nrc.gov/reading-rm/adams.html> and at the NRC Public Document Room in accordance with Title 10 of the *Code of Federal Regulations* (CFR) 2.390, "Public Inspections, Exemptions, Requests for Withholding."

Sincerely,

/RA/

Aaron T. McCraw, Team Leader
Technical Support Staff
Division of Reactor Projects
