Dear Joseph J. Holonich,

I was born here in Moab and
my husband worked first for
Uranium Reduction Company in 1957
later for Atlas Minerals Corporation
up until about 1970.

We were glad to have a job
and the tailings pile wasn't a
problem it didn't seem to have
become a problem until we had
all these radical environmentalists
move in here just recently.

I believe you should let
Atlas Cap this tailing pile where
its at, it didn't bother us while
it was uncovered for over 40
years and it appears as if it would
be even better covered.

Let Atlas finish what they
started and don't pay any attention
to these weird environmentalists.
If they don't like it here they can
move we would be grateful for
that too. Sincerely yours,
Lilly Mae Moorlander
