Mr. Robert D. Martin, Regional Administrator
U. S. Nuclear Regulatory Commission
Region IV, Office of Inspection and Enforcement
611 Ryan Plaza Drive, Suite 1000
Arlington, Texas 76011

Dear Mr. Martin:

River Bend Station Unit 1
Docket No. 50-458
Final Report/DR-189

Gulf States Utilities Company (GSU) has completed its evaluation of DR-189 concerning insulated lugs supplied by General Electric Company (GE) and the crimping tool used for installation in the PGCC. The insulated lugs will perform their intended safety function and the crimping tools used were approved for installation of GE supplied lugs. GSU has therefore determined this condition is not reportable under 10CFR50.55(e).

Sincerely,

wjb J. E. Booker
Manager-Engineering,
Nuclear Fuels & Licensing
River Bend Nuclear Group
