

NOV 07 1984

Mr. Glenn L. Koester
Vice President - Nuclear
Kansas Gas and Electric Company
201 North Market Street
Post Office Box 208
Wichita, Kansas 76011

Dear Mr. Koester:

Subject: Wolf Creek Technical Specifications

In your application for an operating license, you included Technical Specifications. During the course of its review of your application, the staff has worked with representatives from Kansas Gas and Electric Company on these technical specifications to reach mutual agreement on the proposed wording and substance.

Enclosed in final draft form are the Wolf Creek Technical Specifications which were developed using the Final Safety Analysis Report (FSAR), the staff's Safety Evaluation Report (SER), Revision 4 to the Westinghouse Standard Technical Specifications, and operating experience from other recently licensed Westinghouse plants. Please review the enclosed draft and submit under oath or affirmation and as an amendment to your application confirmation that the enclosed draft, or a revised draft incorporating any further changes you believe are necessary, accurately reflect the plant, the FSAR, and the SER analyses.

If you require any additional assistance, please contact the Wolf Creek Project Manager, Mr. Paul W. O'Connor at (301) 492-4708.

Sincerely,

Frank Miraglia/Tor

Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation
