Subject: Request for License Amendment - Safety-Related Shock  
Suppressors, Proposed Change 117

Dear Sir:

In our recent submittal of October 22, 1984 [Reference (g)], a revised Page 125 of the Vermont Yankee Technical Specifications was not included for your review. This page, which updates the shock suppressors (snubbers) bases of the Vermont Yankee Technical Specifications, was originally submitted with our transmittal of Proposed Change 117 in February 1984 [Reference (b)]. We request that this page, a copy of which is enclosed, also be included with your review of the subject license amendment.

We trust this information is sufficient to allow for your continued review and subsequent issuance of a license amendment; however, should you have any questions, please contact us.

Very truly yours,

*R. W. Capstick*
