MAY 07 1984

MEMORANDUM FOR: George E. Johnson, Staff Attorney
Office of the Executive Legal Director

FROM: Bradley W. Jones, Regional Counsel

SUBJECT: WELDER "B" MEETING OF APRIL 18, 1984

Enclosed is the meeting summary on Duke Power Company's discussions with the Region on April 18 and 19, 1984, for transmittal to the Board and Parties. As indicated in the summary, samples have been made in NRC's presence by the involved welders to represent welds that may have been performed outside procedures. Through the agency's contracts with the National Labs, we have arranged for Brookhaven National Lab to evaluate those samples.

Region II will continue to closely monitor the Licensee's activities on these issues and to review the Licensee's evaluations. Region II's conclusions and actions will be contained in a routine inspection report after our evaluations have been completed.

Bradley W. Jones
