Gentlemen:

This refers to the inspection conducted by Mr. R. G. Taylor and other members of our staff during the period September 10 - December 14, 1984, of activities authorized by NRC Construction Permit CPPR-147 for Wolf Creek Generating Station, and to the discussion of our findings with Mr. R. M. Grant and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included review of procedures and records for installation of reactor coolant and other safety-related piping, review of quality records for installation of reactor vessel internals, comparison of as-built plant to FSAR description, followup on allegations, safety-related pipe supports/restraints, as-built piping systems and structures, onsite design activities, followup on construction deficiency reports, and licensee actions concerning NRC Vendor Program Branch inspection findings at Colt Industries. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to these violations, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

During this inspection, it was found that certain of your activities appeared to deviate from accepted industry standards. This item and reference to the standards is identified in the enclosed Notice of Deviation. You are requested to respond to this deviation in writing. Your response should be based on the specifics contained in the Notice of Deviation enclosed with this letter.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

The responses directed by this letter and the accompanying Notices are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

*Original Signed By:*  
Richard P. Denise
