Washington, D.C. 20555

Dear Chairman Palladino:

On September 10^{7th}, 1984 we sent you an Open Petition signed by over 450 residents requesting the Nuclear Regulatory Commission revoke the license of General Public Utilities.

Please find enclosed the signatures of over 300 additional area residents who are convinced that GPU lacks the requisite character to safely operate Three Mile Island Unit 1.

The TMI Unit 1 restart hearing is scheduled to begin November 14th in Harrisburg before the Atomic Safety and Licensing Board of the NRC.

OPEN PETITION

October 19 & 20, 1984

General Public Utilities (GPU), owner and operator of Three Mile Island (TMI), has been guilty of criminal dishonesty for six (6) years. They "lack the requisite character" to safely operate a nuclear reactor. "Character" is one of the few criteria expressly established by Congress in the Atomic Energy Act for the holding of a license. We urge the Nuclear Regulatory Commission to revoke the license of GPU.
