October 16, 1984

Georgia Power Company  
ATTN: Mr. R. J. Kelly  
Executive Vice President  
P. O. Box 4545  
Atlanta, GA 30302

Gentlemen:

SUBJECT: CONFIRMATION OF ACTION - DOCKET NOS. 50-321 AND 50-366

This letter refers to the telephone conversation on October 16, 1984, between Mr. V. L. Brownlee of this office and Mr. J. T. Beckham, Vice President, E. I. Hatch Nuclear Plant concerning the results of the NRC administered written and simulator requalification examinations. These examinations were administered to reactor operator and senior operator personnel at the E. I. Hatch Nuclear Plant on September 18, 1984.

Based upon the matters discussed, it is our understanding that you will take the following actions:

The two operators and nine senior operators who failed the NRC requalification examinations administered on September 18, 1984, will be prohibited from performing licensed duties beginning October 17, 1984. They will not be returned to licensed duties until they have satisfactorily completed an accelerated requalification program and passed an examination approved by the NRC. These eleven individuals are identified by license number in Enclosure 1.

Georgia Power Company representatives will meet with Region II during the week of October 22 - 26, 1984, to discuss the examination results and corrective actions which will be implemented to assure continuing operator competence.

Region II will administer operating examinations in the near future to all licensed personnel on the plant operating staff to ascertain their qualifications for continuing licensed duties. The details of this evaluation will be addressed separately.

If your understanding of our discussion is different from that stated above please inform this office promptly.

Sincerely,

(Original signed by JPO'Reilly)
