Perry Nuclear Power Plant
Docket No. 50-440
Subject: Withdrawal Of A Previously Submitted
License Amendment Request (TAC No. N87175)

Gentlemen:

A license amendment request was submitted on June 18, 1993 (PY-CEI/NRR-1647L), involving revision of Technical Specification Figure 5.1.1-1, and various references to this Figure throughout the current Technical Specifications.

Amendment 69 (the improved Technical Specifications) made changes to the associated Specifications that, when implemented, will obviate the need to process the above requested changes to the current Technical Specifications. Due to the anticipated implementation of those changes within the next several months, the changes requested in the June 18, 1993 submittal are hereby withdrawn.

If you have questions or require additional information, please contact Mr. James D. Kloosterman, Manager - Regulatory Affairs at (216) 280-5833.

Very truly yours,

for Donald C. Shelton
