Gentlemen:

Subject: 10 CFR 50.55(f) Quality Assurance Program Description Change Review  
Beaver Valley Power Station Unit No. 2

Reference: Duquesne Light Company (DLC) letter to USNRC dated November 1, 1984

We have received your letter which documented changes to the Beaver Valley Power Station Unit No. 2 Quality Assurance Program Description, required by 10 CFR 50.55(f). The Region I staff review of the changes, delineated in the above referenced letter from DLC, has found that the changes do not reduce previously made commitments of the Quality Assurance Program and are therefore acceptable.

The effectiveness of your Quality Assurance Program will continue to be the subject of routine regional inspections.

If you have any questions concerning the above, please contact Mr. W. Oliveira, of our staff at 215-337-5329.

Sincerely,

Original Signed By:
