Gentlemen:

Enclosed are copies of the Perry Nuclear Power Plant Process Control Program and Offsite Dose Calculation Manual (ODCM). These are submitted in accordance with ODCM Control Section 6.9.1.7. They reflect changes incorporated as a result of License Amendment 72. This amendment allowed the requirements that pertain to effluent releases and radiological environmental monitoring to be moved from the Technical Specifications into the ODCM.

If you have questions or require additional information, please contact Mr. James D. Kloosterman at (216) 280-5833.

Very truly yours,
