Industrial Security Plan, Revision 36 - Vehicle Barrier System

Gentlemen:

In accordance with 10CFR50.4, enclosed is the original plus 3 copies (Copy Nos. 1-4) of Revision 36 to the Arkansas Nuclear One (ANO) Industrial Security Plan (ISP). Copies 5 and 6 are submitted to Region IV. This revision includes changes to reflect the addition of a vehicle barrier system (VBS) to the ANO site and to incorporate minor editorial changes. A summary of changes is also attached.

The changes have been evaluated in accordance with 10CFR50.54(p). It has been determined that the changes do not decrease the safeguards effectiveness of the ISP; therefore, prior NRC approval is not required. The attached material describes current security measures and is considered to be safeguards information as defined by 10CFR73.21. The attached information should be handled accordingly.

Very truly yours,

*Dwight C. Mims*
