Docket Nos. 50-387/NPF-14  
and 50-388/NPF-22

Dear Dr. Murley:

In accordance with the Susquehanna SES Unit 1 and 2 Technical Specifications Section 6.9.1.5a, PP&L is required to submit an annual personnel exposure report prior to March 1 each year covering the previous calendar year. This letter is to notify you that the report for 1984 will be delayed. In reviewing the draft report, it was discovered that exposure data recorded for certain radiation work permits (RWP) were incorrectly coded into the computer under the job function Refueling. PP&L is reviewing the RWP's to establish the correct job code. We expect to submit the report by March 31, 1985.

Very truly yours,

B. D. Kenyon  
Vice President-Nuclear Operations
