Dear Sir or Madam:

In July 1983, The Blood Center submitted a renewal application for the license listed. Shortly before the application's submission, Dr. Duquesnoy resigned from the Radiation Safety Officer (RSO) position. The Radiation Safety Committee (RSC) appointed me RSO.

Please amend our application to reflect the following changes:

Richard A. Marlar, Ph.D. is an authorized user of all materials listed in 6b, in vitro; and

Rene J. Duquesnoy, Ph.D. is an authorized user of hydrogen-3 and chromium-51, in vitro.

Thank you.

Sincerely,

Richard A. Marlar, Ph.D.
Radiation Safety Officer
