Gentlemen:

VIRGINIA ELECTRIC AND POWER COMPANY  
SURRY POWER STATION UNITS 1 AND 2 AND ISFSI  
NORTH ANNA POWER STATION UNITS 1 AND 2 AND ISFSI  
PHYSICAL SECURITY PLAN - REVISION 0

Pursuant to 10 CFR 50.54(p), Virginia Electric and Power Company submits the enclosed Physical Security Plan for Surry and North Anna Power Stations. The primary purpose of this submittal is to combine the previously separate Physical Security Plans and Safeguards Contingency Plans from each station into a single Virginia Electric and Power Company document. In addition, plan changes address the implementation of 10 CFR 73.55(c)(9)(ii) concerning vehicle barrier systems at both stations and the recent installation of a hand geometry biometrics system at North Anna Power Station.

Attachment 1 contains the integrated Physical Security Plan, Revision 0, which supersedes the previous plans effective April 1, 1996. In order to assist your review, Attachments 2 and 3 each include a site-specific revision summary and plan text highlighted to indicate the changes for the Surry and North Anna plans, respectively.

The enclosed material contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended.

Very truly yours,

James P. O'Hanlon  
Senior Vice President - Nuclear

\*IE531/4
