Gentlemen:

SUBJECT: MEETING SUMMARY - REPORT NOS. 50-321/85-03 AND 50-366/85-03

This letter refers to the enforcement conference held at our request in the NRC Region II Office on January 11, 1985. This meeting concerned activities authorized by NRC Operating License Nos. DPR-57 and NPF-5 of the Hatch facilities. The meeting related to an apparent failure to comply with Technical Specifications as pertaining to reactor coolant system leakage, as well as discussing other matters relating to the adequate performance of maintenance activities.

The subjects discussed are detailed in the enclosed inspection report.

It is our opinion that this meeting was beneficial and has provided for a better understanding of inspection findings and enforcement issues. In accordance with Section 2.790 of NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosure will be placed in the NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them.

Sincerely,

/s/ Paul R. Benis for

James P. O'Reilly
Regional Administrator
