

NOV 9 1984

Docket No. 50-219

GPU Nuclear Corporation
Oyster Creek Nuclear Generating Station
ATTN: Mr. Peter B. Fiedler
Vice President and Director
P. O. Box 388
Forked River, New Jersey 08731-0388

Gentlemen:

We have received a copy of your application dated September 25, 1984, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application proposed certain Technical Specification changes (TSCR No. 130) relating to acceptance criteria for the combined leakage rate of all penetrations and isolation valves subject to Type B and C testing for the Oyster Creek Nuclear Generating Station. Although your application stated a fee of \$150 would be sent by a separate letter, this fee has not been received by us.

Since your application was filed after the June 20, 1984 effective date of the revision to 10 CFR 170 on fees, it is subject to the provision of the revised rule. This rule requires licensees to remit an application fee of \$150 with each application for license amendment, relief, exemption and other request. Therefore, it is requested that your Corporation remit the required application fee of \$150 for your September 25 request. Your Corporation will be billed for any additional costs for the review of this application in accordance with 10 CFR 170.12(c) and 170.21.

Sincerely,

Original Signed by:
Reba M. Diggs
