

ENCLOSURE 1

NOTICE OF VIOLATION

Duke Power Company
Oconee Nuclear Station

Docket No. 50-287
License No. DPR-55

The following violation was identified during an inspection conducted on November 18 - December 10, 1984. The Severity Level was assigned in accordance with the NRC Enforcement Policy (10 CFR Part 2, Appendix C).

Technical Specification 6.4.1 states that the station shall be operated and maintained in accordance with approved procedures with appropriate check-off lists and instructions.

Contrary to the above, documentation of completion of several steps was not totally completed in performance of the controlling procedure for unit startup, OP/3/A/1102/01, as performed November 16 - November 19, 1984, in that:

- a. Upon receipt of an oral report from Department Superintendents that all work necessary for startup was completed, the information was not entered in the supervisors log as required by Enclosure 4.1, step 1.1, of the procedure.
- b. Two of the several calculations to determine adequate shutdown margin required by Enclosure 4.1, step 2.1 and Enclosure 4.2, step 2.2, could not be located although they were signed off in the procedure and operators stated that the calculations were made.
- c. Though the procedure for withdrawing safety and regulating rods was followed correctly, a signoff sheet (Procedure OP/0/A/1105/09) was not completed as required by Enclosure 4.3, steps 2.3 and 2.5.

This is a Severity Level V violation (Supplement I).

Pursuant to 10 CFR 2.201, you are required to submit to this office within 30 days of the date of this Notice, a written statement or explanation in reply, including: (1) admission or denial of the alleged violations; (2) the reasons for the violations if admitted; (3) the corrective steps which have been taken and the results achieved; (4) corrective steps which will be taken to avoid further violations; and (5) the date when full compliance will be achieved.

Security or safeguards information should be submitted as an enclosure to facilitate withholding it from public disclosure as required by 10 CFR 2.790(d) or 10 CFR 73.21.
