Gentlemen:

SUBJECT: DOCKET NOS. 50-325 AND 50-324 - BRUNSWICK STEAM ELECTRIC PLANT
RADIOLOGICAL PLAN REVIEW

We have completed our review of Revision 11 through 16 of the Brunswick Steam Electric Plant Emergency Response Plan.

Our review indicates that your Brunswick Steam Electric Plant Emergency Response Plan continues to meet the planning standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR 50.

Please be reminded that 10 CFR 50.47(b) requires NRC approval of any changes to your plan that may decrease the effectiveness of the Plan. However, if your safety review indicates no decrease in emergency preparedness, then changes can be made without NRC approval. In all cases, you should furnish copies of each change to the NRC in accordance with 10 CFR 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of 10 CFR, Appendix E, Section V (Implementing Procedures).

Should you have any questions regarding this letter, please contact Mr. W. E. Cline of my staff at 404/221-2665.

Sincerely,

David M. Verrelli, Chief
