Docket No.: 50-445

COMANCHE PEAK STEAM ELECTRIC STATION
CCW SYSTEM DESIGN CONCERN
QA FILE: CP-84-22, SDAR-146
FILE NO.: 10110

Dear Mr. Hunter:

On August 24, 1984 we verbally notified your Mr. D. Hunnicutt of a deficiency regarding a concern in the design of the primary coolant and component cooling water (CCW) systems. We have submitted interim reports logged TXX-4311 and TXX-4332 dated September 24, 1984 and October 12, 1984, respectively.

We have completed our investigation and concluded that the matter is not reportable under 10CFR50.55(e). Records supporting this determination are available for your inspector's review at the CPSES site.

Very truly yours,

A handwritten signature in cursive script that reads "Billy R. Clements".
